Victor Lisanti, M.D.
Associate Research Director
The Council for Tobacco Research - U.S.A., Inc.
900 Third Avenue
New York, New York 10022

Dear Dr. Lisanti:

I am organizing a conference on Molecular Mechanisms of Carcinogenesis for the Federation of American Societies for Experimental Biology for July 21-26, 1991 at Saxon's River, Vermont. We have an outstanding program designed to bring together researchers from related fields in the molecular genetics and biology of cancer. Attached is the tentative program with a list of topics to be covered and speakers who have agreed to participate. In addition we expect approximately 60-70 young faculty members, post-doctoral fellows and graduate students to attend. The relaxed, informal atmosphere provides an opportunity for detailed conversations about cancer and the development of new research strategies.

I need to raise approximately $20,000 in order to support this conference. I am wondering if The Council for Tobacco Research - U.S.A., Inc. would consider supporting 25% of the conference ($5,000)? If you have any questions please call or write to me at the above address. Any administrative questions should be directed to Marilyn Marsh at the FASEB office, 301 530-7093. Please send the check, made payable to FASEB directly to Ms. Marsh at FASEB, 9650 Rockville Pike, Bethesda, Maryland 20814, and indicate in your cover letter that it is for the Molecular Mechanisms of Carcinogenesis Conference.

Sincerely,

Michael W. Lieberman
